MANUAL XL

VERTICAL FILLING MACHINE WITH 1 FILLING TOOL FOR THE PRODUCTION OF BRUSHES WITH PRE-DRILLED BLOCKS.

MANUAL XL is equipped with a filling tool with 250 mm stroke, able to work fiber with a maximum length of 700mm. The machine operator manually positions the pre-drilled block in the filling area, using a mechanical pointer, which allows to locate the tuft-hole that the filling tool will fill. The brush holder consists of a simple plate for flat brushes and complementary equipment for the production of cylindrical brushes and disc brushes. The filling operation is enabled by a foot-pedal.

Technical Data

Axes	-
Filling tools	1
Drills	-
Stroke (mm)	250
Speed (tufts/minute)	100
Max fiber length (mm)	700
Max filling tool (mm)	15.0
Min filling tool (mm)	3.5
Power consumption (kW)	1.5
Weight (kg)	1130
Dimensions	L - 1200
	W - 1700
	H - 1900
